Press Release

A new European 300cc 2 stroke Championship to be launched in 2014

After a meeting between manufacturers and FIM, Youthstream and FIM Europe are glad to announce to start from next year of a new European 300 2 stroke Championship, that is likely to have a great success and it will be the base for a future World Championship.

The market demand of the 2 stroke for Motocross is increasing rapidly. Youthstream plans to hold between 6 to 7 races together with the MXGP (like it is already done for the 125 and 250). Suggested capacity for the technical rules is going to be from 200cc to 300cc 2 stroke.

Youthstream and FIM Europe believe a large number of riders is going participate to this Championship, in particular because of the fact that the MX3 World Championship will be stopped and for sure there will be many riders wanting to enter.
