General Undertakings and Conditions

All riders, teams, officials and other parties participating in the FIM-EUROPE Motocross European Championships undertake, on behalf of themselves, their employees and agents, to observe all the provisions of the:

1. FIM-Europe Sporting Code
2. FIM-Europe Motocross Regulations
3. FIM Motocross Technical Regulations
4. FIM-Europe Disciplinary and Arbitration Code
5. FIM and/or FIM-Europe Motocross Circuit Standards
6. FIM Environmental Code
7. FIM and/or FIM-Europe Medical Code
8. FIM and/or FIM-Europe Anti-Doping Code
9. FIM-Europe Annuaire
10. FIM-Europe Supplementary Regulations

of the current year, as supplemented and amended from time to time (hereinafter collectively referred to as the "FIM-EUROPE Motocross European Championship Regulations").

The FIM-EUROPE Motocross European Championship Regulations may be translated into other languages, but in case of any dispute regarding interpretation the English text will prevail.

It is the responsibility of each rider and/or team to ensure that all persons involved with their entries observe the FIM-EUROPE Motocross European Championship Regulations at all times. The responsibility of the rider, or any other person having charge of an entered motorcycle at any time during an event is joint and severally with that of the team.

All persons concerned in any way with an entered motorcycle or present in any capacity whatsoever in the Paddock, Waiting Zone, Repair and Signaling Zone or on the circuit, must carry an appropriate pass at all times during the event.

Actions judged by the officials responsible to be contrary to the FIM-EUROPE Motocross European Championship Regulations - or judged to be unsportsmanlike or against the best interests of the sport or the event in question - are subject to disciplinary actions as provided by the Arbitration and Disciplinary Code.

NOTE: For events combined with MXGP/MX2, the timetable is issued by the promoter and may be different for each event.

TIMETABLES: SEE FIM EUROPE WEBSITE FOR THE TIMETABLES FOR EVENTS THAT ARE NOT COMBINED WITH A WORLD CHAMPIONSHIP EVENT.
01.1 MOTOCROSS EUROPEAN CHAMPIONSHIPS

01.1.1 Motocross European Championships

Each year, the FIM-EUROPE holds Motocross European Championships. These Championships are organised according to the FIM-EUROPE Motocross European Championship Regulations, Sporting Code, Chapter 30 - "FIM-EUROPE European Championships and FIM-EUROPE Prize Events".

Subject to the criteria laid down in these regulations, the various European Motocross Championships are open to any rider from any FMN as recognised by the FIM, regardless of CONU.

In addition to 01.1.1:

01.1.1.032 Individual Motocross European Championships for riders and manufacturers:

a) EMX300 2stroke Motocross European Championship.
b) EMX250 Motocross European Championship.
c) EMX125 2stroke Motocross European Championship.
d) EMX150 4stroke Motocross European Championship.

For the EMX150 Championship, riders will be invited by Honda Europe and the Championship Promoter.

e) EMX Open Motocross European Championship.
f) EMX85 2stroke Motocross European Championship.
g) EMX65 2 stroke Motocross European Championship.
h) EMX Quadcross European Championship.
i) EMX Women’s Championship.

The Final event of the EMX65 class and of the EMX85 class will be organized in conjunction with a round of the MXGP/MX2 World Championship at a venue and date decided by the Championship Promoter. This one Final event will decide the European Championship titles in EMX65 class and EMX85 class.

The Championship Promoter will invite the 10 best riders from each zone to participate at the final event. If considered necessary by the Championship Promoter, other riders may also be invited.

At the Final event riders must pay the entry/facility fee as decided by the Championship promoter.

At each zone event, the organiser may charge an entry/facility fee up to 100€ per rider.

EMX65/85 zone events should normally be organised on dates that are free of MXGP/MX2 dates except when MXGP/MX2 is outside of Europe. Any exceptions to this rule must have the permission and authorisation of the Championship promoter.

Riders can only compete in the zone in which their license is issued, or if the license is issued by a CONU or FIM Europe, the rider must nominate the zone he/she will compete in. Changing of zones is forbidden.
The 4 EMX65/EMX85 zones are as follows:-

**North West Europe** – Finland, Norway, Sweden, Denmark, Germany, The Netherlands, Belgium, Luxembourg, Great Britain, Ireland, Iceland, Czech Republic and Slovakia.

**North East Europe** – Poland, Lithuania, Latvia, Estonia, Ukraine, Belarus, Russia and Kazakhstan.

**South East Europe** – Hungary, Romania, Moldova, Bulgaria, Turkey, Azerbaijan, Bosnia-Herzegovina, Croatia, Cyprus, Greece, Israel, Macedonia, Montenegro and Serbia.

**South West Europe** – Andorra, Portugal, Spain, France, Italy, Monaco, San Marino, Slovenia, Switzerland, Austria, Liechtenstein and Malta.

These Motocross European Championships may also be called Individual European Motocross Championships.

01.1.1.034 Motocross of European Nations - MXoEN
01.1.1.035 Sidecar Cross of European Nations – SCXoEN
01.1.1.036 Quadcross of European Nations – QXoEN
01.1.1.037 Women’s Motocross of European Nations - WMXoEN

are European Motocross Championships for National teams, selected by the FMN’s.

The Motocross of European Nations and the Women’s Motocross of European Nations can be scheduled at any time during the season and is decided by the Championship Promoter.

The Sidecarcross of European Nations and the Quadcross of European Nations, should be scheduled after the Individual FIM and FIM-EUROPE Motocross Championships.

**01.1.2 European Championship Events**

Motocross European Championship events must be inscribed in the FIM-Europe calendar.

These events must be staged on circuits that have been approved by the FIM-EUROPE/FIM and comply with the FIM-EUROPE and/or FIM Motocross European Championship Regulations (See FIM-EUROPE and FIM Standards for Motocross Circuits).

No event may be organised before all the necessary legal authorisations have been obtained by the organiser.

Organisers are responsible for providing all facilities and personnel to ensure the safe, smooth and efficient running of the event.
The validity of the third party insurance must come into effect two days before the practices and terminate two days after the last race of the event.

Motocross European Championship events begin at the scheduled time for technical and sporting verifications and end when all of the following have occurred:

- The final results have been approved by the Race Direction or International Jury;
- All deadlines for lodging protests have expired; and
- All technical, sporting and anti-doping controls have been concluded.

If a protest is lodged, the results will not become official until a decision is taken by the Race Direction/International Jury.

The race control must remain fully operational until the end of the protest period, and all officials, marshals and medical staff must remain at the circuit, available to the Race Direction or International Jury, during that period.

For EMX65/EMX85 a Prize-Giving Ceremony of the zone winners must be held at the last event of each zone.

The top three riders in the zone’s standings of each class must take part in the Prize-Giving Ceremony.

Any infraction of this rule will be penalized by the International Jury.

During this Prize-Giving Ceremony, the national anthem of the winner’s country (based on his passport) must be played.

The national flags of the top three zone’s winners (based on their passport) may be hoisted at the same time.

### 01.1.4 Championship Criteria

#### 01.1.4.032 Individual Motocross European Championships

All organised events counting towards the corresponding European Championship will be taken into consideration. However, the FIM-EUROPE Management Council or, if necessary, the FIM-EUROPE Executive Board is entitled, upon proposal from the Motocross Commission and in exceptional circumstances, to make a decision deviating from this principle.

The winner of the European Championship is the rider who has obtained the most points from all the Races of the European Championship, irrespective of the number of races he has completed.

In cases of ties, the number of better placings will be taken into account except in the case of a one-off final, for instance the EMX65/85 finals. (See note below **)

If a tie still exists, the points scored in the last race of the European Championship will determine the order of placing in the final standings. If necessary, the points scored in the last but one race of the European Championship will determine the order of placing in the final standings, and so on...

**For any one-off finals, for instance the EMX65/85 finals, plus the first round of any championship, ties will be decided by the higher placing in the second race.**

For the time being, there is no Manufacturers European Championship.
In the case where a rider participates on motorcycles from different Manufacturers, it is the make of the motorcycle with which he has obtained the most points that will appear next to his name in the final standings, without, however, modifying the calculation for the Manufacturers' Motocross European Championship (if there is one).

The final European Championship standings cannot be considered definitive until the time limits for protests and appeals have elapsed, all protests and appeals have been settled and a final decision has been taken by the competent bodies.

All European Champions are obliged to attend the official FIM-EUROPE Prize-Giving Ceremony.

**01.1.5 Support Races**

During a Motocross European Championship event, support races may be permitted.

However, these support races, as well as any other activities such as the vehicular use of the circuit during the event, including demonstrations or exhibitions, must at all times receive prior authorisation from the FIM-EUROPE and the Championship Promoter.

Authorisation from the FIM-EUROPE does not imply nor include any FIM-EUROPE involvement in and/or liability for these support races/activities which are not run under the aegis and the responsibility of the FIM-EUROPE.

Priority must at all times be given to the Motocross European Championship programme. If necessary, the Race Direction/International Jury can change the time schedule of these support races and/or other activities, or cancel them.

Support Race for non qualified riders (01.1.1.032) must take place if the minimum number of non qualified riders are present.

**01.2 ENTRIES, RIDERS AND TEAMS**

**01.2.1 Supplementary Regulations**

The Supplementary Regulations (SR's) must include all supplementary regulations to the Sporting Code and Appendices and include relevant provisions of the Environmental, Medical and Anti-Doping Codes, as well as details relative to the particular event. They must in no case modify the FIM-EUROPE regulations.

The Supplementary Regulations should be published in the two official languages of the FIM-EUROPE, but minimum in English, and must be approved by the FMNR and the FIM-EUROPE and subsequently ratified by the Race Direction/International Jury.

A copy of the SR's must be sent to the Executive Secretariat no later than two months before the date of the event for approval by the FIM-EUROPE.

Copies of the Supplementary Regulations must also be sent to the Championship Promoter if one exists, and to all Federations having riders liable to participate in the event in question.
The SR’s must be drawn up in conformity with the standard model established by the FIM-EUROPE MXC.

No amendment may be made to the Supplementary Regulations after its approval by the FIM-EUROPE or the FMNR and after the opening date for entries.

However, in exceptional circumstances, an amendment to the Supplementary Regulations may be authorised provided that it is approved by the FIM-EUROPE or the Race Direction/International Jury and subsequently brought to the attention of all persons concerned.

These shirts/uniforms/clothing should include in the overall colour scheme, the colours of the team's national flag, represented in stripes, bands or other design.

01.2.10 Rider Behaviour and Assistance

Riders must at all times adhere to the provisions of the FIM-EUROPE Motocross European Championship Regulations.

Riders must be physically and mentally fit to control their motorcycles in order to promote the safety of the other riders, team members, officials, spectators and other persons involved in the event.

All body jewelry is to be taped over or removed during on-track competition.

Long hair must be contained within the helmet.

Riders must report any underlying medical disorder or injury they may have to the Chief Medical Officer.

At any time during the event, on request of the technical steward, the riders must present themselves and/or their motorcycle(s) and/or equipment to the technical verification.

At all times during the event, a rider will be responsible for keeping his motorcycle in conformity with the rules.

Riders may be held responsible for the actions of their team members.

Riders and team members are forbidden to ride any motorised vehicle and/or bicycle on the track outside the official practice/qualifying sessions and races.

Riders must obey the official flag signals and the boards which convey instructions.

Riders must carry “on-board” cameras on their motorcycles when requested by the Championship Promoter.

Riders are responsible for attending all riders’ briefings and being aware of all information and instructions issued. Team members are encouraged to attend the riders’ briefing.
During an event, a rider must always attempt to succeed. If not, he shall not be allowed to continue the competition and is liable to be penalised by the Race Direction/International Jury.

Riders must ride in a responsible manner which does not cause danger to other competitors/participants.

Unsporting, aggressive or reckless behaviour from a rider or his team members and/or surroundings towards other competitors, mechanics, team staff and officials or other participants (organisers’ and promoters’ staff, medical staff, press, public, etc.) on or off the track may be sanctioned by the Race Direction/International Jury with one of penalties as specified in the FIM-Europe Disciplinary and Arbitration Code

Whenever a rider is receiving treatment from the medical staff, team members/family are not allowed to interfere or hinder their proceedings. The non-respect of this rule may be sanctioned.

Subject to the right of appeal, the Race Direction/International Jury is empowered to penalise a rider according to the FIM-Europe Disciplinary & Arbitration Code and, in exceptional circumstances, loss of right to participate in the Championship which may be applied to one or more events

Riders must always start the free practices from the Waiting Zone, except in the case of combined FIM World Championship events where they will start the free/timed practice immediately after the start test session when the full lap is opened.

In all other solo classes pre-qualifying practices will start from the start straight, when the full lap is opened after the start test session.

When the riders are on the course, consultation between them and team members is restricted to the approved signaling and repair zone. Riders who stop along the course to consult with others may hinder the progress of other riders and such action will be considered as outside assistance.

Only the following signals are allowed between riders/motorcycles and persons connected with them: data and images from official timekeeping transponders and on-board cameras, pit board messages displayed in approved areas and “body language” communication by the rider. Radio communication with riders is strictly forbidden.

Any outside assistance on the course to the riders is forbidden unless it is provided by a marshal carrying out his duty in the interests of safety. Any infraction of this rule may be penalised by Race Direction/International Jury.

Marshals may assist riders by lifting motorcycles. Any repairs or adjustments must be made by the rider, working alone with no outside assistance. Marshals are not allowed to assist riders to re-start their motorcycles.

Riders must use only the marked track. However, if they accidentally leave the track, they may continue at a greatly reduced speed until they can re-enter the track safely.
They must re-enter, without gaining an advantage, at the closest point to where they left the track.

Course cutting is forbidden. The penalty for attempting to gain an advantage by course cutting will be disqualification from the respective practice/race. Further penalties may be imposed by the Race Direction/International Jury.

A zone must be reserved for repairs and signaling (pit lane in the case of events combined with MXGP/MX2) during the practices and races. Only mechanics, signalers, representatives of the industry and essential officials bearing valid passes are permitted in this area.

**No spare/second motorcycle is allowed in the repair/signaling zone/Pit Lane during a race. The penalty for violation of this rule is disqualification from the race or qualification race in question.**

**Riders must always enter the pit lane (repair zone) by the pit lane (repair zone) entrance. When a rider "misses" the pit lane (repair zone) entrance, he must continue in the direction of the course for another lap. Entering the pit lane (repair zone) by the pit lane (repair zone) exit will be considered as attempting to gain an advantage by course cutting for which the penalty will be disqualification from the respective practice, qualification or race.**

Riders may enter the repair zone to receive assistance or to modify, adjust or replace any part of their safety apparel or motorcycle except the frame, which must be sealed. For silencers, refer to the FIM Technical Regulations. Refueling is permitted, but must be done with engines dead.

No replacement of safety apparel, refueling or mechanical service may be carried out on the course or outside the repair zone or waiting zone.

Riders entering the repair zone must come to a complete stop. Violators will be disqualified from the practice/race in question.

Riders who stop their engines in the repair zone may be assisted in re-starting their motorcycles.

Riders who enter the paddock during a race will not be allowed to rejoin that race.

Riders returning slowly to the signaling and repair zone or paddock should take care to avoid the racing line and interfering with other riders.

Riders may groom their place behind the starting gate, without the use of any tools. Riders are not allowed to touch or drop the starting gate when preparing their start position. Watering of starting lanes by riders and/or team staff is prohibited.

Ramps of any kind may not be formed in the starting line prepared by the rider behind the starting grid. The front and the rear tyres must be level. Motorcycles must be centred in the starting gate. Riders may not start in an angle.

**For events combined with MXGP/MX2 (EMX125/150/250/300 + EMX65/85**
Finals), riders/team members are not allowed to prepare their place behind the gate. There will be a metal serrated grid in place which must not be interfered with. Riders are not allowed in front of the rear barrier before they are called to the start.

Riders may not use any starting aid devices. However, starting blocks are allowed in EMX65, EMX85, EMX150, Women’s EMX, the Women’s Motocross of European Nations and the EMX85 class in the MXoEN, plus EMX125, EMX250 and EMX300 when combined with MXGP/MX2 where the metal, serrated starting grid is used.

Once a rider has taken his position at the starting gate, he cannot change it, return to the waiting zone or receive assistance prior to the start.

Riders who have mechanical problems during the sighting lap and/or do not succeed into bringing their motorcycle in the waiting zone (the Skybox in the case of combined events with MXGP/MX2) on time, will be disqualified from the race.

Riders who have mechanical problems in the waiting zone, but do not succeed in repairing their motorcycle before the entrance to the start area is closed, must remain in the waiting zone until the gate has dropped. Once the gate has dropped they can enter the starting area and resume the race. The penalty for violation of this regulation is disqualification from the race in question.

Riders having mechanical problems at the starting gate must wait for assistance until the gate has dropped. Once the gate has dropped, their mechanic(s) may assist at the gate. The penalty for violation of this regulation is disqualification from the race in question.

When crossing control lines, the rider/passenger must always be in contact with the motorcycle.

A rider who is present at an event and who does not take part in the practices and/or in the races and/or leaves the event must always inform the officials of the reasons for his non-participation.

The riders concerned (top three positions in the overall standings in the event and other participants invited at the discretion of the Championship Promoter) must take part in the Prize-Giving Ceremony and the Press Conference. Any infraction of this rule will be penalised by the Race Direction or International Jury.

**01.5.11.34 Motocross of European Nations – MXoEN**

A total of 20 teams will qualify for the Motocross of European Nations, 19 teams according to their results in the Qualifying Races, as well as the winning team of the B-Final.

In both cases, the best three results of each team will be taken into account, irrespective of class. In case of a tie, the best result of the fourth rider will be taken into account. If a tie still exists, the best result of firstly the EMX250, secondly the EMX125 or thirdly the EMX85 class will be taken into account.

If one Qualifying Race is cancelled for any reason, the results from the three other Qualifying Races will be counted to determine the team's qualifying position. If a tie still exists, the best result of firstly the EMX250, secondly the EMX125 or thirdly the EMX85 class will be taken into account.

If two Qualifying Races are cancelled for any reason, the results from the two Qualifying Races that have been run will be used to determine the team’s qualifying position. This result will be counted together with the best lap time position of any of
its two remaining riders in the Free Practice session. In case of a tie with another team, the best lap time position of each team’s remaining third rider in the Free Practice session will be taken into account. If a tie still exists, the best result of firstly the EMX250, secondly the EMX125 or thirdly the EMX85 class will be taken into account.

If all Qualifying Races are cancelled for any reason, lap time positions from the four riders’ Free Practice sessions will be used to determine the team’s qualifying position, still according to the principle of the three best results.

If the B-Final is cancelled for any reason, the remaining non-qualified teams will be classified according to their result in Qualifying. The first non-qualified team will then be designated the 20th team to qualify for the Motocross of European Nations.

If, for unforeseen reasons, no qualification results are obtained before the Warm-Up, then the latter may be treated as qualifying session. In collaboration with the Race Director, the Race Direction/International Jury will decide upon any modifications to the time schedule and qualifying criteria.

If both Qualifying Races are cancelled for any reason, lap time positions from the two riders’ Free Practice sessions will be used to determine the team’s qualifying position, still according to the principle of the two best results.

If there are less than 16 teams present, one qualifying race will be held in which both riders of each team will participate in.
In any case Race Direction may change the format of qualification depending on the number of teams present.

EMX300/EMX250/EMX125/EMXOpen/EMX85/EMX150/EMX65/WEMX-Races

Starting Order

In these classes, the riders select their gates for the Championship races based on the results of the Qualifying.

In the case of 2 Qualifying Groups, the first rider to proceed to the starting gate will be the fastest rider (regardless whether from Group "A" or "B"), followed by the fastest rider from the other group, the second fastest from the pole position rider's group, the second fastest from the other group, and so on.

If they are admitted to the race, the reserve riders leave the reserve area and proceed to the starting gate in order of priority.

If, for unforeseen reasons, no qualification results are obtained in one or more classes before the Sunday, then Race Direction/International Jury will decide upon the qualifying criteria and starting order. However, the same principle will be maintained.

**01.5.20.3.036 Individual Motocross European Championships – EMX Quads**

The riders select their gates for the Motocross European Championship Races based on the results of the Qualifying Practice.

The starting order is as follows:

A. **In the case of one Qualifying Group** (up to 32 Quads)

   a) The first rider to the gate will be the pole position winner, followed by the second fastest, third fastest, and so on.

01.5.23 Stopping of a Race

Any part of the European Championship motocross event can be prematurely stopped for urgent and/or safety reasons or other cases of “force majeure”. In that case, a red flag will be displayed to the riders:

1. Before 2 laps have elapsed

   If a Qualifying Race or a Race is stopped before 2 laps have elapsed, there will be a complete restart. Riders will go back to the waiting zone/SkyBox and the restart will take place as soon as possible.

   Changing of motorcycles will not be allowed.

   If one or more riders are deemed to be at fault for the race being stopped, they may be excluded from taking part in the restart.

   No reserve riders will be introduced.

2. After 2 laps have been completed

   A. For European championship races that are NOT combined with MXGP/MX2:

   If a race is stopped after 2 laps have been completed and before 51% (rounded up but not including the + 2 laps) of the race has elapsed, there will be a complete restart. Riders must return to the Waiting Zone.

   A complete restart for the full race time will take place as soon as possible and up to 30 minutes after the red flag was displayed, at the discretion of the International Jury/Clerk of the Course, or Race Direction.
Changing of motorcycles will be allowed. The final choice of motorcycle must be made 10 minutes before the re-start and the motorcycle must be in the waiting zone. Reserve riders (if any) may take part in the restart of the race if one or more of the original starters are unable to take part or are disqualified from the restart.

B. For European Championship events that ARE combined with MXGP/MX2

If a Qualifying Race or Race is stopped after 2 laps and before 51% of the race time (rounded up) has elapsed, there will be a restart from the pit lane. Riders must follow instructions of officials and go directly to the pit lane where they can receive assistance. Changing of motorcycles is not allowed. No reserve riders can take part in this restart.

A restart will take place as soon as possible at the discretion of the FIM/FIM-E Race Director. At all times, a minimum of 5 minutes from the time the race was stopped will be given to make repairs/adjustments.

Only riders who are “on track” (actively taking part in the race or who are involved in a racing incident) at the moment of the stopping of the race will be allowed in the restart. Riders who have returned to the paddock are excluded from taking the restart.

Riders will line up in a staggered formation in the pit lane in their finishing order at the end of the lap preceding the stopping of the race. The TV monitors will display the restart starting order. Riders who are involved in a racing incident at the moment of the stopping of the race will be placed according to their position at the end of the lap preceding the stopping of that race.

**01.5.24 Noise Control after each Race**

Immediately after each Race, three motorcycles, chosen at random by the Race Direction/International Jury, may be checked for compliance with noise regulations. Other motorcycles may also be checked.

Any rider whose motorcycle is above the maximum allowed post-race limit as specified in the current FIM motocross technical regulations - whether it be one of the riders chosen at random or any other rider whose motorcycle is controlled/verified - will be **penalised by the loss of 5 positions in the race in question.**

Subject to rules governing outside assistance, riders may freely change their silencers but their motorcycles must be checked for compliance. Therefore the Technical Steward and his equipment must be available throughout the event.

In addition to 01.5.24:

- **01.5.24.032 Individual Motocross European Championships.**
- Other motorcycles may also be checked at the request of the Race Direction/International Jury or Clerk of the Course.

**01.5.25 Results / Procedure**

All official outings of the riders on the circuit (see Art. 01.1.3 Format of the event) must be timed, with the results displayed on monitors and communicated to the press.

Timing shall continue until:
- 5 minutes after the end of each practice or timed qualifying session;
- 5 minutes after the arrival of the winner of the race in question.

The winner of a race is the rider who crosses the finish line first.

Races are officially ended at the completion of the lap at which the chequered flag is displayed to the winner.
The riders who follow the winner will then be stopped when crossing the finishing line.

The time at which a motorcycle crosses a control line shall be registered at the moment the foremost part of the motorcycle crosses the line.

When crossing control lines, the rider (and passenger in the SCXoEN) must always be in contact with the motorcycle.

All the riders participating in the Qualification Race and/or Race will be classified in order of finish and number of laps completed; i.e. all riders finishing on the same lap as the winner will be classified in the order they cross the finish line, followed by riders with one less lap, then two laps and so on. Riders must cross the finish line within 5 minutes of the arrival of the winner, i.e. riders have 5 minutes to complete the lap or it will not be counted in their result. The procedure to determine the classification in the results of riders who do not complete the lap within 5 minutes after the arrival of the winner will be according to the number of laps completed, and in the event of a tie, according to their finishing order at the end of the preceding lap.

If the chequered flag is mistakenly displayed later than the official time/distance, the finishing order shall be determined by the running order at the official time/distance.

Under any other circumstances, such as mistaken display of the chequered flag before the official time/distance, the finishing order shall be determined by the running order at the time the chequered flag is displayed.

b01.5.25. Results / Procedure
All results must be homologated by the Race Direction/International Jury.

The results will not become official until the time limits for protests have elapsed.

If a protest is lodged, the results will not become official until a decision is taken by the Race Direction/International Jury.

If an appeal is lodged against the decision of the Race Direction/International Jury, the results cannot be considered as definitive until a final decision has been taken by the competent body. In the case of Race Direction the appeal is lodged with the appointed Stewards of the event and their decision is final.
