

08th March 2020

Press Release n. 19

2020 Motocross European Championships
Calendar Update - Trentino Postponed

The FIM Europe and Infront Moto Racing regrets to inform that due to the ongoing coronavirus outbreak, the MXGP of Trentino, Italy, scheduled together with the EMX250 and EMX 2T on 4th-5th April, has been postponed to 18th-19th July.

Considering the very difficult situation in Italy with regards to the coronavirus and the fact that the Italian government has forbidden the organisation of public events in Italy until the 3rd April including the difficulties of travelling in the northern regions of the country, the 2020 MXGP of Trentino in Italy will be postponed.

The aim of FIM Europe, FIM and Infront Moto Racing is to make the FIM Motocross World Championships and FIM-E Motocross European Championships run with all the events programmed. The rest of the calendars up to now stay unchanged while the development of the situation in every country is being followed in a daily basis monitoring.

In agreement with the organisers of other rounds and local authorities, FIM Europe and Infront Moto Racing are prepared to postpone other events if that becomes necessary.
