

FIM Sustainability Week gets under way on World Environmental Day

Dear colleagues,

The Motorcycle Federation of Bosnia and Herzegovina (MS BiH) strongly participated in the FIM campaign "Sustainability Week and World Environmental Day".

This season, MS BiH is supported by FIM through a Project contribution for environmental protection.

In the first part of the year, we did a lot in terms of:

- sorting waste into marked containers,
- using environmental mats under motorcycles and petrol generators in the paddock,
- toilets,
- noise level restrictions,
- leaving used oil, brake fluid, filters, rags, tires, belong in marked waste containers,
- waste disposal and recycling,
- planting trees and flowers,
- familiarizing yourself with the environmental management map placed in a visible place,
- etc...

We will continue in the future to follow all FIM projects and especially "Green ride".

We are pleased to send you attached photos of our environmental protection projects.

Best regards!

Director of MS BiH
Davor Komsic
