Website <https://www.hotelconta.it/en/>

FIM Europe invites you, your wife/husband and/or your friends to participate to an unforgettable riding experience.

The FIM Europe Club Experience 2023 will be held in the famous area of the Prosecco Hills.

Conegliano Valdobbiadene, an idyllic location between Venice and the Dolomites

This uniquely beautiful landscape has been carved out over the centuries, through the cultivation of its vines and the industrious work of many men and women. It represents an intricate patchwork of stories, places and communities and has been recognised as a UNESCO World Heritage Site. The setting is the province of Treviso: picture the rolling green hills northwest of Conegliano leading up towards Valdobbiadene.

These two towns border an area that has been cultivating vines for centuries. It has an unusual geomorphological conformation made up of a series of steep, rugged elevations interspersed with stretches of small, parallel valleys. It's a challenging terrain, with hilly slopes modelled by mankind into an agricultural landscape that is multifaceted both in its form and composition.
