Motocross European Championships: 2024 calendar updates

The FIM Europe, together with Infront Moto Racing and FIM, is glad to announce two updates to the 2024 Motocross European calendar.

The Spanish venue of Cozar will be the third Spanish stop of the season as the host for the thrilling final round of the 2024 EMX125 Presented by FMF Racing and EMX250 series. The MXGP of Castilla La Mancha will take place on the 28th and 29th September.

Riders will face a challenging and diverse track featuring spectacular jumps and tight corners, pushing them to their limits in pursuit of the final podium of 2024. Nestled in the natural surroundings renowned as the land of Don Quixote, the venue offers a picturesque backdrop.

The MXGP of Castilla La Mancha also aims to promote development and forge connections between the sport and the region of Castilla de la Mancha. This project represents a significant stride towards linking the region with the global motocross community for many years to come.

Castilla-La Mancha was declared last December in Toledo as the European Region of Sport for the year 2024. In this context, the association of sports clubs of Tierras del Quixote and the Castilian-Manchegan motorcycle federation have collaborated and worked together to ensure that the region enjoys the best of motocross worldwide.

Further to this announcement, the Motocross of European Nations that is set to be held at the TCS Racing Park near the Romanian capital Bucharest, will be pushed a week later to the 22nd of September. The MXoEN comes back after 2 years and will be a celebration of many European riders who will race together and in teams to lift the MXoEN trophy.
