

UEM Press Release

nr 32/2012

RECORD REGISTRATIONS TO THE 1ST ROUND OF THE ENDURO EC

The organisers of the first round of the Enduro European Championship, scheduled on the 26th and 27th of May 2012 in Arsié (Italy), informed that until now they received the registration of 235 riders, among them only 50 coming from Italy. The rest is coming from different European countries, also from countries that participate to the Championship for the first time (for example Croatia and Lithuania).

This record number of registration to this championship is a further confirmation of the value, also under a promotional point of view, of this event. Furthermore, it is important to highlight that 71 riders belong to the Junior classes, which is a good sign for the future of this discipline.

In Arsié will be held also the single round of the UEM Cup of the 50 cc class.
