## FIM Europe first Executive Board Meeting

On July 23rd was held the Executive Board Meeting of the new FIM Europe management. The meeting, which is the first of the mandate which has just started after the election of Dr. Wolfgang Srb as new FIM Europe President on July 5th, was hosted by Youthstream Media, at its headquarters in Geneva Airport.

Among the questions faced, it was considered important to start immediately operational activities within FIM Europe, dealing with the most relevant issues of the current management and, most importantly, starting to plan future activities both for the sport and for the non-sport matters. The economic and financial situation was also analyzed in order to make the available resources congruent with the final phase of the sports season and with future programs.

The current FIM Europe management is extremely determined to represent at its best the interests of its Federations organizing for next year "very strong" championships which can be attractive while performing their role of "launch" of young riders at national level towards the World Championships. But at the same time these championships must be "feasible" in relation to the current economic situation that the Continent is experiencing.

"I am very satisfied with the meeting and the full commitment of all the members towards a stronger FIM Europe", dr. Wolfgang Srb said. "On top of our agenda are subjects like to receive more subventions from FIM for European projects, a European Road Racing Championship as of 2015 and an efficient and cost effective management of FIM Europe".
