FIM Europe presents the Women's European Cup

FIM Europe is proud to announce the new born Women's European Cup, reserved to women only with 300cc bikes and Dunlop tyres.

This championship has the patronage of the Italian Federation and it is organized by EMG Eventi e Moto X Racing, well known as creator of the Yamaha R1 Cup and Dunlop Cup.

The Trophy responds to the need to fill a gap: a track competition for an increasingly and competitive women's movement and represents the last step of a path born from the creation in 2019 of "LetyXRacing", the first Italian women's school by Letizia Marchetti (FIM certified), EMG Eventi and Moto X Racing.

Soon the official rules will be on line.

The races will follow the calendar of the Italian Road Racing Championship.
