

On the occasion of the European 250cc Youth Speedway Cup „A moment for nature” – a meeting with PZM environmental project: [#PzmIDoCareAboutTheEnvironment](#) was held in the infield of Motoarena Torun on 17th July 2021.

This time we spoke with young riders from Czechia, Great Britain, Denmark, Sweden and Poland about 3R (reduce – reuse – recycle) - important things for our environment. The riders, Jury members, parents, guests, etc. signed the posters and we had the family photo at the end of the meeting. [#250ccspeedway](#) [#fimeurope](#) [#ecofriendly](#)  
Additionally Polish riders received environmental mats from the PZM.
