10 November	CITTA' DI MANTOVA (ITA)	Mantova	EMX125, EMX250

The FIM Europe would like to inform of some updates to the **2021 Motocross Championships calendars**.

There have been unavoidable updates due to the ongoing COVID-19 restrictions, but the FIM Europe together with Infront Moto Racing and all the organisers have been working hard to maintain a full racing calendar for one of the most competitive seasons.

As a result, the **MXGP of Portugal in Agueda** that was originally scheduled to take place on the 23-24 of October will no longer take place this year and it will be postponed to 2022. Instead will be substituted by a triple-header in Pietramurata with the **MXGP of Trentino** (23-24 October), **MXGP of Pietramurata** (26-27 October) and **MXGP of Garda** (30-31 October) and two events in Mantova for the **MXGP of Lombardia** (6-7 November) and **MXGP of Città di Mantova** (9-10 November).

In addition, the FIM Europe regrets to inform that this year's **FIM-Europe Motocross of European Nations** will not go ahead as originally planned and will be postponed to 2022 at a venue to be announced soon.

The 2021 edition of the MXoEN was due to take place in Riola Sardo, Italy later this season, though the tough decision was made to push back the event by a year.

The FIM Europe and Infront Moto Racing look forward to a fantastic edition of the Motocross of European Nations in 2022. More info on the venue that will host the 2022 event will be shared soon.

The FIM Europe would like to thank all of the parties involved for understanding and cooperation during this period.
