Press Release n. 04

FIM Europe Club Lapland Experience 2022

The beginning of the year 2022 brings along the FIM Europe Snowmobile week. Even though the Covid-19 pandemic has presented a lot of challenges to the organizers, we are happy to announce that the FIM Europe snowmobile week will take place in Rovaniemi, Finland, in the middle of March 2022 and the event will consider all the actions needed to arrange a Covid safe experience for the participants.

The Snowmobile week is a co-operation between FIM Europe, Snowmobile Guide Association of Finland and the Finnish Motorcycling Federation to offer a non-sport experience in the exotic wilderness of Finnish Lapland. As the name states, it is all about enjoying the winter and nature of Finland with the help of snowmobiles and the broad network of snowmobile routes around Lapland and the Rovaniemi area.

The Snowmobile week of 2022 has been a success so far and the week is already fully booked, on the base of the applications already received for the 2021 Edition postponed for the COVID-19 Emergency, with snowmobile enthusiasts around Europe. The participants come from different FIM Europe member Federations. The goal for the week is to enjoy the non-sport snowmobile activities, Finnish winter and discuss motorsports and non-sport topics during the week in March. The goal is to build a tradition and further develop the knowledge of responsible motorsport and non-sport activities in Europe.

More information about FIM Europe Snowmobile week, please contact the Snowmobile Guide Association of Finland: jukka.sgaf@gmail.com
