01.1.4 Supercross European Championship Criteria

All organised events counting towards the corresponding FIM-EUROPE Supercross European Championship will be taken into consideration. However, the FIM-EUROPE Management Council or, if necessary, the FIM-EUROPE Executive Board is entitled, upon proposal from the Motocross Commission and in exceptional circumstances, to make a decision deviating from this principle.

The winner of the FIM-EUROPE Supercross European Championship is the rider who has obtained the most points from all the Races of the FIM-EUROPE Supercross European Championship, irrespective of the number of races he has completed.

In cases of ties, the number of better placings will be taken into account except in the case of a one-off final. (See note below **)

If a tie still exists, the points scored in the last race of the FIM-EUROPE Supercross European Championship will determine the order of placing in the final standings. If necessary, the points scored in the last but one race of the FIM-EUROPE Supercross European Championship will determine the order of placing in the final standings, and so on...

** For any one-off finals, plus the first round of any championship, ties will be decided by the higher placing in the last race.

For the time being, there is no Manufacturers Supercross European Championship.

In the case where a rider participates on motorcycles from different Manufacturers, it is the make of the motorcycle with which he has obtained the most points that will appear next to his name in the final standings, without, however, modifying the calculation for the Manufacturers' FIM-EUROPE Supercross European Championship (if there is one).

The final FIM-EUROPE Supercross European Championship standings cannot be considered definitive until the time limits for protests and appeals have elapsed, all protests and appeals have been settled and a final decision has been taken by the competent bodies.

01.1.5 Support Races

During a FIM-EUROPE Supercross European Championship event, support races may be permitted.

However, these support races, as well as any other activities such as the vehicular use of the circuit during the event, including demonstrations or exhibitions, must at all times receive prior authorisation from the FIM-EUROPE or the Championship Promoter.

Authorisation from the FIM-EUROPE does not imply nor include any FIM-EUROPE involvement in and/or liability for these support races/activities which are not run under the aegis and the responsibility of the FIM-EUROPE.

Priority must at all times be given to the FIM-EUROPE Supercross European Championship program. If necessary, the Race Direction/International Jury can change the time schedule of these support races and/or other activities, or cancel them. Support Race for non qualified riders must take place if the minimum number of non qualified riders are present.

Riders/team members are not allowed to prepare their place behind the gate. Riders are not allowed in front of the rear barrier before they are called to the start.

Once a rider has taken his position at the starting gate, he cannot change it, return to the waiting zone or receive assistance prior to the start.

Riders who have mechanical problems during the sighting lap and/or do not succeed into bringing their motorcycle in the waiting zone on time, will be disqualified from the race.

Riders who have mechanical problems in the waiting zone, but do not succeed in repairing their motorcycle before the entrance to the start area is closed, must remain in the waiting zone until the gate has dropped. Once the gate has dropped they can enter the starting area and resume the race. The penalty for violation of this regulation is disqualification from the race in question.

Riders must cross the finish line within 5 minutes of the arrival of the winner, i.e. riders have 5 minutes to complete the lap or it will not be counted in their result. The procedure to determine the classification in the results of riders who do not complete the lap within 5 minutes after the arrival of the winner will be according to the number of laps completed, and in the event of a tie, according to their finishing order at the end of the preceding lap.

If the chequered flag is mistakenly displayed later than the official time/distance, the finishing order shall be determined by the running order at the official time/distance.
