

ENVIRONMENTAL TRAINING FOR YOUNG RIDERS

During the 2022 season, the Slovak Motorcycle Federation is following the ideas of the FIM Europe "Green education strategy".

In the Slovak Republic, they organize meetings with young riders of motocross, road racing, enduro and trial.

During the meetings, environmental stewards present the main topics:

- Waste sorting
- Use of environmental mats under motorcycles
- Cleaning motorcycles in washing areas
- Single use plastics
- Waste oil containers
- Footprint in nature

Children interacting with teachers and talking animatedly about their experiences of sporting events.

Environmental stewards use roll ups with short themes, power point presentations and banners with environmental themes. Small souvenir gifts are prepared for the young competitors.
