Supersport 300 Cup: Guido Berselli crowned champion at Brno Circuit

The round at Brno Circuit concluded the 2022 season of the Supersport 300 Cup that saw Guido Berselli wrap up the title at the end of the race two.

The fifth and last event of the calendar, hosted in the Czech Republic, was raced in mixed weather conditions, as Friday's free practice sessions were wet, while Saturday's qualifying and Sunday's races on a dry asphalt. This did not hinder the spirits of the fans who showed their support.

The strong result of Berselli, with a win and a second position, also meant that he secured the gold medal in the championship standings, while Patrycja Sowa tried until the last to grab the title. The Polish rider had to settle with the silver medal, despite the victory of race two and the second position in race one.

Double third for home rider David Filipin, third in the standing too, but out from the fight of the title.
